Recommended for 2016 Construction Loan Funding:

Skyway Water & Sewer District

Skyway Park North Phase 1 Sewer Replacement

County: King
Legislative District: 37th
PWB Loan Request: \$4,121,575
Other Funds: \$440,500
Total Project Cost: \$4,562,075

Serves:

- **Schools:** 4 (Indirect Benefit to 2,262 Students)
- **Businesses:** 190
- **Community Facilities:** 2

This project will replace the existing 60+ year old gravity sewer main system in a residential neighborhood north of King County Skyway Park. The degraded sewer pipe condition has resulted in costly localized repairs and emergency maintenance actions. The District is taking advantage of cost savings by combining a portion of a planned 2015 water main replacement located within the sewer project boundary. Asbestos cement water mains that are 50+ years old with a history of repeated breaks will be replaced.

Previously Funded P WTF Projects	Amount	Year	P WTF Program	Status
Sanitary System Improvement	\$241,682	1987	Construction	Complete
Langston Sanitary Sewer Improvements	\$1,500,000	1989	Construction	Complete
