

Washington State Department of Commerce

Public Works Board

The Public Works Board *FirstStop Initiative* helps you find the financial and technical assistance resources your community needs to ensure sustainable infrastructure systems for the businesses and families you serve.

FirstStop Initiative: EZview

The Public Works Board is pleased to partner with the Governor’s Office for Regulatory Innovation and Assistance, Association of Washington Cities, and Washington State Association of Counties to promote EZview.

What is EZview?

The [EZview](#) web site is managed by the [Governor's Office for Regulatory Innovation and Assistance \(ORIA\)](#). EZview provides project dedicated web sites for local governments and state agencies to plan, share, document and collaborate. Project dedicated web sites provide open, accessible and up-to-date project information. EZview is safe, secure and cloud-based.

EZview Basic Service:

Free service offered to state agencies and local governments only.

[How to set up a project website](#)

Find out how your high priority infrastructure projects can benefit by **EZview!** Contact your [Regional Service Coordinators](#) (RSC’s). RSC’s are your advocates to the Board and conduit to relevant infrastructure resources.

See what other local governments have to say:

Randy Lewis, City Administrator

City of Westport: *"We are using the EZview for our Shorelines Master Program Update. The EZview site allows immediate access for all information related to our program update including meeting schedules and documents for everyone involved or interested in the process. It has really reduced the number of questions and logistics of providing information for our staff."*

Bart Stepp, PE, Public Works Director

City of Woodland: *"I think it's great that they are providing EZview as a free service. The provided web format worked well for us. I expect the website to have the most value during construction when people can see the changes and want to know what's going on."*

Pam Folsom, Communications Director

SCJ Alliance: *"EZview has proved very valuable to our clients, both cities and counties. It allows all interested parties to easily access project updates, notices of upcoming meetings, informational and background documents, and contact information. The provided web template has the needed basics and is easy to populate. The staff is very responsive to requests for assistance and 'tweaks' to the template as needed for a specific project. We've been very pleased. I think EZview is a great value, allowing communities an opportunity for greater transparency and community involvement."*

Jerry Basler, Assistant Planner

Whitman County: *"Whitman County Planning Department is updating its [Shorelines Master Plan](#). Due to limited funds for a website to inform the public on the update, Whitman County is using EZview. The County has had great success utilizing EZview to get information out to the public concerning its Shorelines update. Staff is very helpful. The website is easy to update. It is a great resource for a jurisdiction with limited funds to use for a website."*

Tony Carroll, Safety & Environmental Compliance Specialist

Kitsap County Public Works – Roads: *"EZview is a great platform for communicating projects to stakeholders and is very easy to use. I use the project notification tool feature to notify stakeholders of the work we are doing in water under the [General Hydraulic Project Approval](#) and it works great. EZview also has an excellent mapping feature for showing where the work is being done."*

Jan Ollivier, Transportation Manager

Kittitas County Public Works Department: *"QUADCO, a four-county Regional Transportation Planning Organization, is currently developing a website using EZview. Now, all of the counties, cities, towns, and interested parties that participate in QUADCO can keep informed with this centralized location that has a clean look and is easily navigable."*

 Governor's Office for Regulatory
Innovation and Assistance
State of Washington

EZview is a continuing partnership of:

[Washington State Governor's Office for Regulatory Innovation and Assistance \(ORIA\)](#)

[Association of Washington Cities \(AWC\)](#)

[Washington State Association of Counties \(WSAC\)](#)
