

## TIB Training Opportunities

### Information for successful TIB projects.

The Transportation Improvement Board provides local agencies with several opportunities for training. TIB funding program workshops are held in each year in June to help agencies apply for grants. TIB Academy, held on an as needed basis, teaches about how TIB administers grants once an agency receives one.

### TIB Funding Program Workshops

The Transportation Improvement Board conducts funding workshops throughout the state each year in June for TIB's annual funding programs. TIB's funding workshops provide information about the various funding programs TIB administers, the scoring criteria for each program and the application process for TIB programs. These workshops are intended to increase the probability of a successful project application.

TIB schedules separate workshop sessions targeted for small cities (incorporated cities with a population of less than 5,000) and urban agencies (cities with a population above 5,000 and counties with urban unincorporated arterials).

With recently adopted changes in the Urban Arterial Program, it is highly recommended that urban agencies attend funding workshops in 2013.

For more information on the application process, see our [How to Apply](#) page.

### TIB Funding Workshop Webinars

On June 19, 2013 TIB presented Urban and Small City Funding Workshops in a webinar format.

To watch one of the webinar sessions, follow the links below:
